

13' Aquex Pro

SWIM SPA COLLECTION

DYNASTY SPAS®

This has been one of the best purchases my family has ever made. The K1000 touch screen control panel makes it so simple to operate both the swim functions and the lights; I can even use the app on my phone to get the tub warmed up so that it's ready for me by the time I get outside. The exercise equipment is absolutely fantastic, and my son is glad he gets his own private training sessions when the school's pool is closed. I can't emphasize enough how happy we all are with this swim spa.
